*None of the prior art shows the following combination:*  
a pressing disk non-rotatably received in the recess in a

corresponding one of the second adjusting bases on the handle and having  
a central hole defined through the pressing disk for the pivot  
extending through the central hole; a guiding block formed on the pressing disk at a side far  
away from the corresponding half casing of the handle and having two curved guiding  
edges formed respectively on two ends of the guiding block; and  
a positioning block formed on the pressing disk at a side far  
away from the corresponding half casing of the handle and having two ends;  
a pressed disk non-rotatably received in the corresponding first adjusting base and having  
a central hole defined through the pressed disk for the pivot extending through the central hole  
a guiding block formed on the pressed disk at a side far away from the corresponding half casing  
of the head and having two curved guiding edges formed respectively on two ends of the guiding  
block and selectively abutting against one end of the positioning block on the pressing disk; and  
a positioning block formed on the pressing disk at a side far away from the corresponding half  
casing of the handle and having two ends selectively abutting against one of the guiding edges of  
the guiding block on the pressing disk.

Any comments considered necessary by applicant must be submitted no later than the  
payment of the issue fee and, to avoid processing delays, should preferably accompany the issue  
fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for  
Allowance."
